PMP Price Increases – 1st March 2025

Dear Valued Customer,

In line with our commitment to give you as much notice as possible on any supplier price increases, please find below details of some forthcoming price increases.

PMP Manufacturing remains committed to the development of cost-effective, high-performance insulation solutions. However, increases in raw material, labour and energy costs have made manufacturing more challenging than ever moving into 2025. The decision to increase prices is something, as a business, we take extremely seriously and where we are able, we do try not to pass on all the cost increases that have been coming down the line.

The increase will be applied to all deliveries of materials after the **1st March 2025**

	Range	% Increase
	SlottedSection™	**6.0%**
	PreClad NuPhen / Free-Issued Conversion	**6.0%**

We trust that our advance notice will allow you to incorporate these changes within your own pricing strategies and we would like to take this opportunity to thank you for your ongoing support throughout 2024 and look forward to working closely with you throughout 2025 and beyond.
The full Nett and Customers pricelist will be available from January 2025

Yours sincerely,

Edvinas Siksnius, Tom Kralik, Phil Woolacott,
Directors
